Date Jan. 3 1993

RE Input

Our group supports the idea of inventory but believe this questionnaire had some shortcomings. We thank you for the effort and work you are doing. We realize that it is a tuff task we ask of you. That your group or ours is not perfect only that we are trying to get better understanding. Our group would like to have seen some type of question evaluating the Fellowship's C.A.R.. We also did not believe the responses were always correct to the question asked for a response of Agree or Disagree or Don't Know maybe sometimes All the time or Never would have fit.

Question 10 Disagree

We don't believe we received our moneys worth in this questionnaire, the C.A.R. and in some other issues. These our a major concern.

Question 14

Why did this not ask for a ranking of Fellowship priorities. It was more like an authorization question.

Question 16

Some members had knowledge of all publications but not the majority.

Question 15

We think this questionnaire and parts of the CAIR just help to confuse some issues in this fellowship. They ^{do not} ~~neither~~ educate or explain clearly what you are asking us to make decisions on.

Question 18 Disagree

We are one unified fellowship let each culture decide what works for them.

Question 19 Agree

To a certain degree what we have needs to be strong so problems worldwide can be addressed.

Question 20 Disagree

We have groups in rural Areas that have many problems to overcome.

Question 22 Agree

Most of the time but not always. We do not like how the C.A.R. motions are always dealt with. If we need more time to develop and vote on a motion than the time frame should be addressed. Friendly Amendments should be seen or sent in and dealt with ahead of time or decisions made the following year. We trust our ASR and believe they should be the decision makers of our Fellowship. Why was the question who votes at the conference not addressed in this inventory.

Question 23 Disagree

We believe too much interpretation is being done. We give our ASR direction should not our Fellowship

reflect on what the combined R.S.R.'s
decisions are.

Thank You
