Re: Inventory RSC Questionnaire

On Jan 15 1994 10 of the 12 ASR's were present from our region, 4 of the ASR's had already been involved in their ASC's Questionnaire.

In the interest of time we decided to go through the questions without discussion unless someone had questions for clarification or if someone felt strongly that they needed to make some statement. Half way through the process we realized we were having some tie votes and the decision to have the chairperson break ties was made.

Enclosed is a copy of the questionnaire which was used by the RSR to tally the votes. Those responses which received 8, 9 or 10 votes have been highlighted with pink.

#13 - After this question was read the reader commented that "maybe we should insert the work survey instead of information:" It is not clear if the comment swayed the response, however it was clear from the laughter that a clear majority agreed the survey was not easy to understand or easy to respond to.

Thank you for the opportunity to participate.
