# WORLD DIRECTORY

This is the first Directory of meeting produced since 1981. Information in this Directory was initially based on the last Directory, new meeting registrations, and area meeting Directories that had been received at WSO. All of this information was integrated and then sent to the RSR for each area in the U.S. and to representatives of each country where a meeting was listed. These drafts were corrected and returned to us. The Directory was then printed based on the revised information.

We have made every effort to provide an accurate Directory of meetings but, as you can easily see, our information is based on what we received from the Fellowship. We need to be informed of changes in the information presented. If you attempt to attend a meeting that is listed in the directory and find the meeting closed, or moved, please let us know as soon as possible.

The format of this Directory is an experiment and is subject to changes that you find desirable. Please advise us of ideas that would improve the use of the Directory. The decision to provide the Directory in loose leaf form will allow printing of revision pages without need to make a complete reprinting.

The current plans are for the first revision to be printed and available in the first few months of 1984. Changes that are suggested to us within the next few months may influence the choice of actions when the printing time arrives.

## TO THE FELLOWSHIP

This year marks the 30th year that Narcotics Anonymous has been in existence. From the first meeting in 1953 and a few addicts that felt they could remain free from drug addiction, the Fellowship of Narcotics Anonymous has grown to a Fellowship of tens of thousands.

The first meetings may have lacked the finesse and structure our current meetings have, but they helped keep its participants from using. In the early years, the Fellowship grew slowly and went through the growing pains of personalities and differing opinions of direction and philosophy. But by working the steps and following the Traditions, stability in the organization and gradual growth resulted.

Acceptance of Narcotics Anonymous as an alternative way to avoid drug use was not achieved over night. It took years of hard work and patience to overcome the barriers of suspicion, intolerance, and fear. By the late 1960's N.A. began to achieve recognition and take a more permanent shape.

By the mid 1970's the format of meetings and the structure we currently recognize were serving a fellowship that extended across the country and had members in remote places around the globe.

Today, Narcotics Anonymous is a rapidly growing Fellowship with a strong presence in each Dominion of Canada, every State of the United States, and in sixteen other nations. Public and private agencies, governmental institutions and hospitals are flooding the Fellowship for requests for literature, books, advice and assistance in bringing recovery to thousands of people around the world.

Narcotics Anonymous will continue to expand as more addicts discover that recovery can be found in working the Twelve Steps and Traditions of the N.A. program. This Directory of meetings is a testament to the growth and stability of N.A. There are over 2,700 separate meetings listed and more are being started every day.

Use this directory well and often as the lives of addicts depends on getting the message of recovery to those who still suffer.
