Van Nuys, CA 91406 (818) 780-3951

September 1984

Dear Friends:

Enclosed with this letter is the third update of the World Directory of N.A. meetings. This update contains 86 deletions of meetings and 394 listings of new meetings. This brings the total number of meetings listed at just over 3,550 meetings.

As each update has been published, we have made more corrections to the basic publication. With each update issue, therefore there have been fewer corrections to the white pages. This resulted in only one complete page replacement (page 172) with this update. For listings that are changed or corrected, the new information is underlined.

You will find in this update a number of corrections or deletions of meetings that were listed in one of the two previous updates. These corrections (or deletions) are identified in the column for the page notation with the appropriate numbers separated by a line, for example 6/84/53. The first digit represents the month that the listing was published in. The second set of digits represent the year (1984). The third digit(s) represents the page number on which the listing being corrected is contained.

For convenience in locating meetings in the state you are most concerned about, you should make notations on the appropriate page of each change, deletion or new meeting. A notation such as "See 9/84 update page ____" might be sufficient.

Please assist us in keeping the Directory up to date. If you have new information that pertains to any of the meetings listed, please send the information to us as soon as possible. The next update will be issued in December 1984. A complete new directory will be published in the Spring of 1985.

Yours in service to the Fellowship.

World Service Office.
