Van Nuys, CA 91406 (818) 780-3951

January 1985

Dear Friends:

Enclosed with this letter is the fourth update to the 1983 printing of the World Directory of N.A. meetings. This update includes information on 359 new meetings. Also included is information on 26 meetings that are being deleted. This is a net growth of 333 meetings, or a 10.66% increase over the number of meetings previously listed. There are no replacement pages in this update.

You will find in this update a number of corrections or deletions of meetings that were listed in one of the three previous updates. These corrections (or deletions) are identified in the column for the page notation with the appropriate numbers separated by a line, for example 6/84/53. The first digit represents the month that the listing was published in. The second set of digits represent the year (1984). The third digit(s) represents the page number on which the listing being corrected is contained.

For convenience in locating meetings in the state you are most concerned about, you should make notations on the appropriate page of each change, deletion or new meeting. A notation such as "See 9/84 update _____" might be sufficient.

A complete new printing of the World Directory with all of the previously noted changes is being prepared. This will be the 1985 edition of the World Directory. This edition of the World Directory will actually be printed in three separate volumes. Each sold separately. The same format and paper size will be used. The three separate volumes of the directory are divided geographically in the following way: Volume 1 - contains meetings east of the Mississippi River and continuing North along the Eastern Minnesota State line, and all of Canada East of the Providence of Manitoba. Volume 2 - contains all of the states and Providences West of this line. Volume 3 - contains all other meetings from around the world.

The new printing should be available in March. If you would like to obtain a copy, you may use the order form shown at the end of this letter. The initial purchase price will include a single update, to be issued for this edition of the World Directory.

January 1985

Dear Friends:

Enclosed with this letter is the fourth update to the 1983 printing of the World Directory of N.A. meetings. This update includes information on 359 new meetings. Also included is information on 26 meetings that are being deleted. This is a net growth of 333 meetings, or a 10.66% increase over the number of meetings previously listed. There are no replacement pages in this update.

You will find in this update a number of corrections or deletions of meetings that were listed in one of the three previous updates. These corrections (or deletions) are identified in the column for the page notation with the appropriate numbers separated by a line, for example 6/84/53. The first digit represents the month that the listing was published in. The second set of digits represent the year (1984). The third digit(s) represents the page number on which the listing being corrected is contained.

For convenience in locating meetings in the state you are most concerned about, you should make notations on the appropriate page of each change, deletion or new meeting. A notation such as "See 9/84 update _____" might be sufficient.

A complete new printing of the World Directory with all of the previously noted changes is being prepared. This will be the 1985 edition of the World Directory. This edition of the World Directory will actually be printed in three separate volumes. Each sold separately. The same format and paper size will be used. The three separate volumes of the directory are divided geographically in the following way: Volume 1 - contains meetings east of the Mississippi River and continuing North along the Eastern Minnesota State line, and all of Canada East of the Province of Manitoba. Volume 2 - contains all of the states and Provinces West of this line. Volume 3 - contains all other meetings from around the world.

The new printing should be available in March. If you would like to obtain a copy, you may use the order form shown at the end of this letter. The initial purchase price will include a single update, to be issued for this edition of the World Directory.

The update will be prepared in August 1985, and available soon thereafter.

We have found that a quarterly update system is inefficient, particularly because many of the meetings shown in updates this year are brand new meetings. Many of the new meetings change their location, time or place in the same quarter in which the meeting was originally registered with our office. We have frequently not learned of these changes until after the update was printed and mailed. We have adopted a new policy, effective with the printing of the 1985 World Directory, that new meetings will not be shown until they have been in existence, according to registration date with our office, for a period of six months. This policy will reduce confusion and the need for quarterly updates. If you had previously purchased an update for this existing directory for a period that would extend beyond January 1985, you may want to contact our office for a refund for the unused portion of the update subscription.

Please keep in mind to inform us of any changes or inaccuracy in the information contained in this update or future printings of the directory.

Yours in service to the Fellowship,

World Service Office
