

NAWS

**Annual Report** 1 July 2011 - 30 June 2012

# Inspired by Our Primary Purpose

"The basic purposes of our world services are communication, coordination, information, and guidance. We provide these services so that our groups and members can more successfully carry the message of recovery and so that our program of recovery can be made more available to addicts everywhere. Although all parts of our service structure affect and are affected by NA as a whole, only at this level do we find service bodies designed to deal with problems that involve our entire fellowship."

All of the efforts of Narcotics Anonymous are inspired by the primary purpose of our groups.

Upon this common ground we stand committed.

# Inspired by Our Primary Purpose

## A Note from Your World Board

Last year, our NAWS Annual Report incorporated a fair amount of information from our planning process. In particular, much of the information was related to the work being carried out in the 2010–2012 conference cycle in response to trends identified in our environmental scan. Our planning process is a two-year cycle linked to the World Service Conference, and so as the 2012 WSC took place, our various projects were concluded, reaffirmed, or newly adopted for the coming conference cycle. For the first time since restructuring in 1998, the WSC elections resulted in a full 18-member World Board. We are looking forward to working together as a full board to continue in our strategic planning process, including updating our environmental scan to make note of any changes and new developments that should be taken into consideration as we move ahead.

In the first part of the 2011–2012 fiscal year, we were in the final stretch leading up to the 34th World Convention of NA, which took place in San Diego, California. Because we publish our annual report at the end of the calendar year, we were able to report on WCNA 34 in the previous issue of this report. The convention was quite successful, with over 13,000 members from

47 countries coming together to celebrate recovery "In a Spirit of Unity." After having begun the fiscal year with WCNA 34, we were then set to make preparations for the 2012 World Service Conference, which took place closer to the end of the fiscal year.

The 2012 World Service Conference was historic for a few reasons. First, the Fellowship had the opportunity to vote on our latest book-length recovery literature, *Living Clean: The Journey Continues*, which was approved unanimously. There has been a tremendous buzz throughout the Fellowship about this book, and we heard shortly after the conference that *Living Clean* literature study meetings were popping up already in a number of places. The other historic aspect of WSC 2012 was the continuation of the Service System Project. For that conference, the next step of the project involved trying to identify areas of agreement about some of the foundational aspects of what our service system in NA should look like. There has been a range of responses to some of the ideas being discussed in connection with this project, and our hope for the conference was to discuss these ideas and the Fellowship's responses in order to set the tone for the coming conference cycle and further Service System Project work to be done. Overall, the tone of WSC 2012 was spirited and civil, with various perspectives being discussed and some measure of agreement being reached in terms of the future of this work. We appreciate the opportunity to come together at the conference to work constructively toward furthering the primary purpose of the NA groups.

The theme for this year's annual report comes from WSC 2012, "Inspired by Our Primary Purpose." In our collective efforts to further the work that begins in our recovery meetings—carrying the message to still-suffering addicts—we often face great challenges. Both sales and contributions continue to be down compared to previous years. The new budget adopted at WSC 2012 reflects a more conservative view of how long it could take to return to the level of financial activity that we saw prior to the worldwide economic issues of the past few conference cycles. Finding the most cost-effective and creative approaches for moving toward our vision continues to be of utmost importance due to the continuing challenges of reduced revenue. The cost-cutting and saving measures that we have undertaken over the last several years have made it possible for us to get by with less. In some areas we are able to find creative ways to try to achieve the same goals in cost-effective ways, but in some cases it simply means we have to put work on hold or cut it entirely due to lack of funds. The most heartbreaking aspect of doing so is being unable to know for certain which work might have made it possible for a still-suffering addict in a particular place to hear our message and find recovery.

As we have mentioned before, we are not like many other international businesses and nonprofit organizations in that we do not have the liberty, or the desire, to cut many of the levels of service we provide. We continue to supply translations and free or subsidized literature to new and struggling NA communities that would not otherwise have access to our printed message. We also continue to make literature available free of charge to incarcerated addicts upon request. The table below shows the trend of our distribution of free or subsidized literature over past years.

#### Free and Subsidized Literature 2000-2012

These sorts of services are essential to the ongoing health of NA as a whole and are integral parts of fulfilling our vision. Narcotics Anonymous is a worldwide fellowship, and the primary purpose of the groups we serve is a mission close to all of our hearts.

For each member of the World Board, personal gratitude continues to drive our efforts as trusted servants. Our hope is that this annual report continues to provide meaningful information about our work. Everything we do at NA World Services helps us to further the primary purpose of the NA groups, moving us further toward a future in which every addict has an opportunity to experience our message in his or her own language and culture. We continue to move forward on behalf of the fellowship toward the goals identified and decided upon by the World Service Conference, as "Inspired by Our Primary Purpose." We thank you for your continued support, and we encourage you to read this report as an account of our shared challenges and successes.

Our vision is that one day:

Every addict in the

world has the chance to
experience our message
in his or her own language
and culture and find
the expectanity for a

the opportunity for a new way of life...

## **Conference Projects**

Our strategic planning process is organized around the two-year cycle from one World Service Conference to the next. The environmental scanning component of our planning factors more heavily into the second half of each cycle, as we begin to identify needs and frame goals and approaches to be presented at the conference for the coming cycle. The conference-related work for this fiscal year involved the continuation of projects decided at the 2010 World Service Conference, including the multicycle Service System and Living Clean Projects, along with some looking ahead to what may be needed in the coming cycle.

## Service System

As we have outlined in previous issues of the annual report, the Service System Project was created to take an overall look at how to improve local services and address some of our long-standing challenges in service delivery. For this third cycle of the project, the World

An Introduction to NA Meetings: www.na.org/intro

Issue Discussion Topics: www.na.org/idt

Service Conference approved a plan with two main focuses: to conduct field testing and to further discuss some of the ideas in the SSP that need clarification.

We're calling this a "field test," not a formal "beta test," because we are limited by the nature of the test and our time frame. Several communities are providing feedback on their experiences implementing the ideas in the proposals, and we are encouraging anyone interested in trying out any aspect of the proposals to contact us and let us know how we can help. We started the field test in November 2012, and we hope to complete the process by the end of July 2013, which will allow time to include a summary in the 2014 Conference Agenda Report. Although our field test has some limitations and it's not possible to conduct a truly "scientific" test, we have already learned a great deal and we expect the process will provide important information for us to move forward. For more information on field testing, including several resources/tools that have been developed, see the Field Testing Frame and Tools sections at www.na.org/servicesystem.

There are also some aspects of the proposals that still need to be clarified, such as how to adapt the system to meet the needs of particular communities (such as larger and smaller NA communities), how literature distribution and fund flow might operate in a revised system, the role of zones, WSC seating, etc. For more information on discussions slated for this cycle, see the "Ongoing Discussions Related to the Service System Proposals" document in the Related Materials section at www.na.org/servicesystem.

As always, we welcome questions or concerns from the Fellowship. Our hope is that any NA community trying aspects of the SSP proposals (such as GSUs, consensus-based decision-making, etc.) will share those experiences with us by emailing **servicesystem@na.org**. In order to put forth the best ideas for improving our services at WSC 2014, we need help translating the ideas in the proposals into actual practice on a local level. Updates about the project will be posted online as they are available at **www.na.org/servicesystem**.

## The Traditions Book Project

WSC 2010 adopted a motion to create a project plan for a Twelve Traditions working guide, and a 2011 fellowshipwide literature survey indicated that this is an item that our members are very interested in: Over 80% of respondents said this was an item that was needed or very much needed.

Comments in the literature survey showed a wide variety of expectations about this topic. Some wanted something that could be applied personally, some wanted questions to be asked in a style similar to those in *The NA Step Working Guides*, some wanted to better understand the application to groups and service, etc. At the 2012 World Service Conference, we offered a plan for a two-cycle project so that we can have more of a dialog with the fellowship this cycle about the focus and approach of a Twelve Traditions working guide before any drafting begins.

The creation of a workgroup, actual drafting of the book, sending the material out for review, and ultimately publishing an approval draft would happen in the 2014–2016 cycle, pending approval at the 2014 conference, with the book being up for approval at the 2016 conference.

Our goal for this cycle is to gather fellowship input, source material, and ideas regarding a traditions book both online and through face-to-face workshops. The resources listed below will help in those efforts. By the end of the cycle, we would like to frame viable options for the book so that we can move forward with writing it in the 2014–2016 conference cycle. Find more information online at www.na.org/traditions.

## An Introduction to NA Meetings Project

The service pamphlet An Introduction to NA Meetings was originally envisioned primarily as a public relations tool—something that NA trusted servants who interact with professionals could distribute to help those professionals prepare addicts for what they would experience when attending their first NA meetings. In practice, however, this pamphlet has been one that seems to fit less neatly

into the Board-approved Service Material category, in part because potential NA members are the intended audience for the piece.

For this reason, the 2012 World Service Conference adopted the *Introduction to NA Meetings* Project to make this pamphlet more readily accessible to those who find it most useful. Our two main goals with this project are to affirm that this piece is the best it can be and to publish an approval form in the 2014 *Conference Agenda Report* so that, as Fellowship-approved literature, it can be more widely available to those who will benefit most from it.

This piece has been available to the Fellowship in its current form since 2008 and seems to be quite useful to members and service committees in many places. It is available in English, Spanish, Portuguese, Italian, Norwegian, and Russian. We have not heard any suggestions for revision from the Fellowship up to this point, and the World Board reviewed the piece in preparation for releasing it for fellowship review and input and did not see a need for changes. For more about this project, visit the project page online at www.na.org/intro.

## **Fellowship Issue Discussions**

Issue Discussion Topics (IDTs) offer an opportunity for a broad-based fellowship discussion on current recovery topics that affect our entire fellowship. These discussions help to make our communications more relevant and form an integral part of working toward achieving some of the objectives from our strategic plan.

Issue Discussion Topics are subjects that addicts in NA communities around the world focus on in discussions and workshops throughout the two-year conference cycle. This cycle's IDTs are linked to the 2012 World Service Conference theme, "Inspired by Our Primary Purpose," which comes from the introductory paragraph of A Vision for NA Service.

All of the efforts of
Narcotics Anonymous are inspired
by the primary purpose of our
groups. Upon this common ground
we stand committed.

We need your local involvement in these discussions so that you can provide us with your ideas and feedback. All three of the Issue Discussion Topics relate directly or indirectly to the Service System Project, and these are also issues that will be reflected in the traditions book, a project that will start later this year. We often say our diversity is our strength. These are issues that need to accurately reflect our diversity for both projects. There are three IDTs for the 2012–2014 conference cycle, described below.

IDT materials were released not long after our first meeting as a full board. We currently have received only minimal feedback, but we expect to gather more as the conference cycle progresses. Comments, input, and ideas are all welcome and can be sent to worldboard@na.org.

#### Collaboration

NA is a "we program," and the idea of "together we can" extends beyond our personal recovery into the service we do. This IDT focuses on how we best collaborate within our areas, regions, and zones, as well as from service body to service body. Collaboration is simply working together toward a common

If we are acting in goodwill doing the right thing for the right reasons—we are sure to benefit. Each of us has something to give ...

Living Clean: The Journey Continues

goal. This is something we easily focus on at the NA meeting level, but often have a hard time putting into practice in our service efforts. Collaboration is also one of the five foundational principles of the Service System Proposals.

As we consider the ways we work with each other, it is easy to identify many experiences of collaboration: setting up the chairs for a meeting, planning for an annual picnic, and H&I service on a panel, just to name a few. Sometimes we become embroiled in passion and we place personalities before principles. By stepping back and collecting our thoughts, we see that together we can work through any issue. No single personality can dominate when members are linked talking together, planning together, and working together.

One member does not fulfill our primary purpose; NA members join together to help communities grow. We gain a sense of purpose, being part of a large international NA community. As we discuss collaboration, we want to consider questions like: How do we work together more effectively in our groups, areas, regions, zones, and at world services? What gets in our way?

Our direction in service comes from a God of our understanding, whether we serve as individuals, as a group, or as a service board or committee. Whenever we come together, we seek the presence and guidance of this loving Higher Power. This direction then guides us through all our actions.

*It Works: How and Why*, Tradition Two

#### **Group Conscience**

The original title of this IDT was "Group Conscience, Delegation, and Accountability," and this session still covers all of these principles. We'd like to encourage a fellowship-wide discussion about how these principles work together and complement one another. What decisions do we make on a group level and what do we delegate? How do we hold a service body accountable if we are delegating "the authority necessary to fulfill the responsibilities assigned to it," as stated in the Third Concept? These are the sorts of questions this IDT asks us to consider.

This is clearly an issue where local practices

differ greatly. We asked delegates attending the 2012 WSC how their regions reached a conscience about WSC matters. Only 60 of the 112 reports we received even attempted to answer this question. Most of these were evenly divided between a group tally, a regional assembly of some form, and an area tally.

The practical application of the principle of group conscience clearly varies in different NA communities. Identifying this as an IDT for the cycle will help us to gather the thoughts and best practices of members in many different communities and generate discussion that will help members understand that there may not be just a single right way to view this topic.

#### **Supporting Our Vision**

This topic is a carryover from the last conference cycle, when two of the three IDTs were Self-Support and A Vision for NA Service. This topic joins the two previous IDTs in the hopes of helping members see the vital connection between financial contributions and our fellowship's ability to support the primary purpose of the NA groups and further the NA vision.

Although we have made great strides toward achieving some of the elements of our vision, such as increasing the number of languages and cultures we are able to reach, we still have a long way to go to achieve the ideals established by the vision. It can seem overwhelming at times. Perhaps Jimmy K said it best in the quote below, which reminds each of us that every effort, regardless of how small, can make a difference.

You know, I said many times a long time ago that a man without a dream is only half a man, and a fellowship without a vision is a farce. I still believe that. I know damn well that we can find our fulfillment living a day at a time here; and, a day at a time, our vision and our fellowship can become a greater reality.

This is part of a dream come true; and a dream envisions great changes, but progress demands many small actions. A dream doesn't come true because of one group of people or one man or two men or three men, it comes true because a lot of people work at it, because a lot of people put an effort into it, because a lot of people buy the idea and carry it forward.

Jimmy K, NA Twentieth Anniversary Dinner

This IDT addresses what we can do to further the growth, health, and development of our fellowship and fulfill our primary purpose. It also raises an issue of perennial concern in NA, that of being self-supporting through our own contributions. The culture of contributions in NA, all too often, still simply consists of putting a single dollar in the basket, no matter how much the world has changed since NA first started. This is why we continue to attempt to raise awareness of the importance of the matter through these types of discussions.

Narcotics Anonymous has universal recognition and respect as a viable program of recovery...

# Fellowship Development

The work we do at NA World Services is simply an extension of our fellowshipwide efforts to further our primary purpose and bring A Vision for NA Service closer to becoming a reality. This section of the annual report describes some of the travel we do to provide direct support to NA communities in assisting them to reach addicts seeking recovery. These efforts can range from a large-scale workshop in an established community focused on a range of service topics to helping to establish the basic building blocks of recovery and service in an emerging NA community.

The NAWS Strategic Plan consistently contains a number of objectives that directly affect the task of fellowship development. A few of these include: presenting and discussing ideas for a more effective service system, helping to build and sustain all NA communities, and providing guidance and support on philosophical issues that challenge NA communities.

## NAWS Workshops Around the World

Our financial picture has not improved greatly over the past fiscal year, but it also has not gotten significantly worse. We continue to exercise prudence, even though this sometimes means saying "not yet" to some of the work that would help us to further our vision but is simply not financially viable at the moment. With regard to workshops and fellowship development, our

## NAWS Workshop Expenses 2004–2012

goal is to try to identify the most strategic uses of NA funds—situations where the expense of doing the work will have as much impact as possible. The previous fiscal year marked our lowest expenditure on direct fellowship interaction in a decade, which was not repeated during this fiscal year. Our ability to effectively support developing NA communities is greatly hindered by that type of reduction in services, and we hope not to repeat it.

During the 2011–2012 fiscal year, we participated in twelve zonal forums; eleven area, regional, or multiregional conventions and workshops; and five professional events for public relations purposes, including two outside of the US. We took the opportunity to interact with large groups of US regional delegates at zonal CAR workshops in preparation for the 2012 WSC. We also remain committed to attending meetings of each of the four zonal forums outside the US, as we believe they present an invaluable opportunity to interact with numbers of delegates from communities that we might otherwise never meet.

We do continue to try to consolidate multiple events into single trips whenever possible. One example of this during the 2011–2012 fiscal year was the combination of Arabic LTC workshops in Kuwait that were followed by PR events.

We are also including a graph illustrating the meeting growth over recent years. Because we cannot rely on the accuracy of the information in our meeting database, these numbers are collected through regional reports before each WSC. This also means that our meeting count figures are only updated every two years in conjunction with the conference. This information can provide us with a snapshot indicator of where NA is growing and where it is not, in order to help us discuss underlying reasons for the trends and how we can better serve our communities. The overall climb in the number of NA meetings illustrates that we have come a long, long way from a handful of meetings scattered around Southern California, but the flattening of some of those lines also sends a very clear message that we could be doing better.

## **Trend**

(from the NAWS Environmental Scan)

There is a growing demand for NA in countries where there is no established recovering population to speak of.

As we have written before, we believe fellowship development is directly related to both the availability of NA literature in the local languages and public relations efforts in the communities. For newer NA communities, especially those outside the US that may not have nearby neighbors to provide assistance, NAWS fellowship development work—at times in partnership with the local zonal body—plays a vital role in the translations and PR efforts that help these communities to begin to grow and flourish.

#### **Public Relations Statement**

## Why Public Relations Is Important to the NA Member

The Narcotics Anonymous message is "that an addict, any addict, can stop using drugs, lose the desire to use, and find a new way to live." Our relations with the public enable us to share this message broadly so that those who might benefit from our program of recovery can find us. We perform public relations service to increase the awareness and credibility of the NA program. We share our message openly with the public at large, with prospective members, and with professionals. Maintaining an open, attractive attitude in these efforts helps us to create and improve relationships with those outside the fellowship. Establishing and maintaining a commitment to these relationships can help us to further our primary purpose.

The spiritual principles of our steps, traditions, and concepts guide us in pursuing our public relations aims and our efforts to enhance NA's public image and reputation. These principles apply to our community and service efforts as well as to the personal behavior and attitude of individual NA members.

#### Informing Professionals and the Public

Narcotics Anonymous is a global, community-based organization with a multilingual and multicultural membership. NA was founded in 1953, and our membership growth was minimal during our initial 20 years as an organization. Since the publication of our Basic Text in 1983, the number of members and meetings has increased dramatically. Today\*, NA members hold more than 61,800 meetings weekly in 129 countries. We offer recovery from the effects of addiction through working a twelve-step program, including regular attendance at group meetings. The group atmosphere provides help from peers and offers an ongoing support network for addicts who wish to pursue and maintain a drug-free lifestyle.

Our name, Narcotics Anonymous, is not meant to imply a focus on any particular drug; NA's approach makes no distinction between drugs, including alcohol. Membership is free, and we have no affiliation with any organizations outside of NA including governments, religions, law enforcement groups, or medical and psychiatric associations. Through all of our service efforts and our cooperation with others seeking to help addicts, we strive to reach a day when every addict in the world has an opportunity to experience our message of recovery in his or her own language and culture.

\*As of May 2012.

## **Public Relations**

The 2011–2012 fiscal year marked our third fiscal year of reduced PR activity due to budget constraints. However, we were able to realize participation in one additional international conference during this year. We are mindful of our slow progress toward public relations activity while drug use continues worldwide and pharmacology advances continue in the treatment of addiction. Meanwhile, the United Nations 2010 Drug Report (the most current report for FY 2011) indicated the US and Canada have seen an increase of problem drug users who abuse synthetic opioids/prescription medicine, particularly in the age group of 50 and over, while Europe continues to see heroin as the most popular drug of choice. In Southeast Asia, crystal methamphetamine is the primary drug of abuse. The need for Narcotics Anonymous to be seen as a stable, accessible, and reliable recovery option worldwide remains. At the International Society of Addiction Medicine Conference in Oslo, Norway, NA represented the only drug-free recovery approach present to provide information to physicians; medication-based addiction treatments, on the other hand, were very well represented. Our presence in Oslo helped our relations with the Norwegian government; the Director for Substance Abuse for the country requested a presentation, as did a treatment center that primarily employs drug replacement as their treatment method. That particular institution was interested in Narcotics Anonymous due to requests from patients for abstinence-based approaches to recovery.

Information from the March 2011 NAWS Environmental Scan demonstrated a relevant need for NA to remain visible and interact with treatment and healthcare professionals. Funding for treatment is often linked to drug replacement therapy, particularly in countries that have government-sponsored healthcare. We attended the American Society of Addiction Medicine (ASAM) conference, which was a mirror to ISAM yet on a larger, national scale. The ASAM conference validated our need to maintain a presence; 90% of exhibitors were pharmaceutical companies. Many physicians stopped by to tell us that they were grateful we were at the conference because abstinence-based recovery options had been lacking. At the ASAM conference we met two physicians who are recovering in NA, one of whom does administer drug replacement medication, but whose patients are drug-free by the time of discharge. The second physician brainstormed with colleagues about how to portray abstinence as a recovery model. Many addiction professionals (approximately 60% of ASAM physicians) prefer the use of drug replacement medications to an abstinence-only approach. With the continued medical-

ization of addiction treatment and the widely used ASAM and National Institute of Drug Abuse (NIDA) definition of addiction as a brain disease, NA needs to remain vigilant with informing medical professionals as well as government agencies that Narcotics Anonymous is a viable abstinence-based community resource for recovering addicts. The demographic profile of addicts attending their first meetings is changing over time as many more are arriving on medication given to them in

#### **Trend**

(from the NAWS Environmental Scan)

There is a growing perception that addiction is treatable through medication—and that NA is not a resource for those on medication.

treatment. Cooperation with healthcare professionals and a welcoming atmosphere from members will help NA to be that community resource for addicts. We know there are many other recovery options available, but our goal is to make it possible for addicts to find a home in NA.

Governmental relations are key in many countries. We have reported about the growth of NA in Iran through public relations efforts with the government, and this has also held true in other countries. NA Spain has continued its relationships with government officials since the PR efforts that took place in preparation for WCNA 33, and the UK has formed strong, ongoing cooperative relationships with government. Southeast Asia is one area that has continuing drug use and where many addicts have not found NA. Southeast Asia has minimal NA presence; NAWS presented at the International Federation of Non-government Organisations (IFNGO) conference, which was held in Malaysia in 2011. We had not attended this conference for over ten years, and coming back provided an opportunity to interact with many professionals in treatment and government, including police from Malaysia and treatment professionals from Thailand and the Philippines. These professionals were interested in our literature, and the president of Thailand expressed interest in NA to help his citizens.

Public relations service work is not confined solely to government, healthcare, and treatment. PR is a valuable service with drug courts because of the number of potential members they refer to meetings, and they continue to proliferate with new initiatives for veteran and reentry courts. As of 2010 (most current numbers) there are approximately 2,316 active drug courts, 31 US reentry drug courts, and 62 veteran drug courts. Additionally, the National Drug Court Institute figures indicate that 15 countries use the drug court model. Research demonstrates the efficacy of drug courts and their cost-effectiveness in lieu of incarceration. NAWS continues to attend their annual drug court conference to build cooperative relationships with these professionals and to learn of challenges they have faced in referring potential members to NA. With all the initiatives for veterans, veteran drug courts are growing, and they will be having their own annual conference. NAWS is considering a second cooperative venture with the physician researcher we partnered with for a member survey. The target group for the member survey will be recovering veterans, but all members who attend a meeting will be encouraged to participate. This second survey is in the early planning stages, and the survey itself hasn't been developed. We are providing advance notice due to the numbers of veterans who may be referred to NA from the drug courts.

The criminal justice aspect of PR, which encompasses incarcerated addicts and those on parole or probation, relies on effective cooperation with professionals in that field. As mentioned above, reentry courts may contribute to increased numbers of addicts in meetings. Building and maintaining cooperative relationships with professionals in criminal justice is one of the first steps in welcoming these potential members to NA. In an effort to support members who provide services to incarcerated addicts, we have resources such as *H&I Basics* and Chapter Six in the *Public Relations Handbook*, "Criminal Justice." We also have a publication for incarcerated addicts, *Reaching Out*, which has implemented improvements based on suggestions from a workgroup and supported by the board. Online subscriptions grew from 5,221 to 9,109, and paper copies by mail total 10,871. This periodical is a resource that can be used in public relations work, as it gives professionals a chance to read that members who heard the message of recovery "on the inside" are staying clean and becoming productive members "on the outside."

#### **NAWS Membership Survey**

At each world convention since 1996, we have distributed a membership survey, and more recently we have also offered it online for members who did not attend the convention. We distributed surveys to attendees at the Friday evening speaker meeting at WCNA 34 in San Diego, in September 2011, and made it available online through 31 January 2012. We had the largest number of respondents ever—17,492. The surveys returned certainly bury the myth that there is no recovery in NA, as the average length of cleantime among respondents was 10.87 years. No drug came out as a clear-cut main drug of use, but the top two (within a percentage point of each other) were stimulants and opiates, and this statistic actually is similar to those found in a recent UN report on drug abuse. In this survey we also asked about medication use, and 47% of those who responded to the survey stated they had taken medications for health maintenance and mental

health issues. We have the 2010 *In Times of Illness* for member support and the SP NA *Groups and Medication* for group support. Even though we as a fellowship have no opinion on outside issues, the issue of medication tends to spurn members' comments. As a fellowship, we are aging, which is a factor that may contribute to an increase in health issues. NA's newest piece of recovery literature, *Living Clean: The Journey Continues*, offers life experience as we continue in our recovery.

The *Membership Survey* also illustrated that members experience marked improvement with family relationships, social connectedness, stable housing, and employment. Most professionals realize that using addicts do not function in society particularly well, yet they are more interested in how we have improved to become productive, contributing members of society. The Membership Survey is a resource for public relations efforts; professionals in the fields of treatment, government, healthcare, and criminal justice are keen on the facts in the survey as it provides them with information about NA in an unbiased manner.

### **Member Survey**

The NAWS Membership Survey was validated through the member survey which was administered by NA members at the group level in the states of Pennsylvania and Florida and in Los Angeles County. This was the cooperative venture with an independent, nonaddict physician researcher. The member survey mirrored the results of the Membership Survey. Most professionals want to be assured of the reliability of data they are presented with, and this independent member survey, which validates our own NAWS Membership Survey, helps provide that assurance. Our desire to form cooperative relationships with researchers is not new, and in fact the perceived benefits of doing so were even highlighted in the *Public Relations Handbook* when it was approved at WSC 2006. This researcher's outcomes will be published in a medical journal in the near future. This cooperative effort is a first for NA—a nonaddict physician researcher reporting about the Fellowship of Narcotics Anonymous to his peers in the medical field. This action may help raise the credibility of NA in the eyes of the medical community. With the continued medicalization of addiction treatment, these types of cooperative relationships with physicians who are familiar with NA's effectiveness will be vital to the continued growth of NA worldwide.

Every NA member,
inspired by the gift of
recovery, experiences
spiritual growth and
fulfillment through service.

# **Essential Ongoing Services**

Just as fellowship development happens in the course of most of NAWS' efforts, direct services to the Fellowship are provided by every team at NAWS. While much of our conference-related work is cyclical in nature, revolving around the timeline of our biennial World Service Conference, a great deal of our work at NA World Services is steady and ongoing. These services exist to meet some of the essential needs of our fellowship on a routine basis.

## **Fellowship Services**

Often, the most direct interaction between members around the world and NA World Services happens through the Fellowship Services Team. The following statistics illustrate just a few of the services this team provides the fellowship, and compares average monthly activity from this fiscal year to previous years to give a sense of some of the trends.

FS Team Activity Monthly Averages				
	FY 2010	FY 2011	FY 2012	
H&I Letters	362	409	458	
Book Requests	190	186	212	
Books Sent	55	65	68	
Jail Mail Requests	32	25	24	
Institutional GSKs	n/a	6	6	
Free GSKs	27	30	36	
Misc Requests	32	30	23	
Tours	n/a	26	25	
Phone Calls	689	593	496	
Emails / Letters	492	426	475	
Total Monthly Communications (average)	1660	1507	1513	

As a general observation about the trends, requests for literature and other free material continue to increase, while other communications have declined or remained the same. We strive to balance the desire to provide materials to those who request it with our need to be prudent with valuable NA resources. One trend that we have noticed recently is an increase in the number of contacts from churches and treatment centers inquiring about getting meetings started in their facilities. We generally direct those facilities to local trusted servants for follow-up, and this trend seems like an indicator of the increasing recognition and respect of NA as a viable option for recovery.

Even with all of this activity, we also know that as members become aware of the variety of resources available online at na.org, many find answers to their questions without needing to contact us. Already available online are NA handbooks, service pamphlets, bulletins, recovery literature, an area containing locally developed resources, and many other resources meant to provide members with useful information. There are ways for new and existing groups and committees to register or update their information online, or for members to manage their subscriptions to reports and periodicals. The locally developed resources area also gives members the chance to share their tools and solutions with one another. We encourage areas and regions to send their local resources (training and orientation materials, minutes, guidelines, etc.) to Fellowship Services so that they may be made available to other service committees.

In recent years, we have also seen an increase in requests for free literature from NA groups and members, and from incarcerated addicts. This may be due to either economic circumstances or increased awareness that NA World Services can be a resource, or some combination of these two factors. In any case, typically we are able to respond to these requests and meet the immediate need for literature. We are pleased that we currently have the resources to respond to as many requests as we do (see FS Team activity table). On the subject of resources, the Fellowship Services Team is one of the segments of NAWS that has seen a substantial reduction in force over the last year. This reduction challenges us to find ways to increase our efficiency, while also maintaining our effectiveness. We continue to look for those opportunities.

Locally developed resource area: <a href="http://www.na.org/?ID=local">http://www.na.org/?ID=local</a> resource area

### **Group and Committee Updates**

We partner with local service bodies to ensure that we have the most up-to-date information for groups and service committees. Local web contacts at areas and regions have the ability to log in and provide updates to our database. Here are some figures for group/ASC/RSC information updates in the NAWS database over the last year, a shared responsibility between NAWS staff and local trusted servants:

As these numbers indicate, local trusted servants and NAWS are working together quite well in keeping database information accurate and up-to-date. Staff members still double-check entries to

ensure that there are no major errors, but local web contacts add a considerable level of speed and reliability to the group/service committee update process. As the table shows, the numbers have shifted back toward more entry by staff this year than local web contacts.

Database Activity					
	FY 2010	FY 2011	FY 2012		
Staff–Group Registrations/Updates	325	202	269		
Staff–ASC/RSC Updates	55	38	40		
Staff–New ASC/RSC	3	1	3		
TOTAL Staff Registrations/Updates	383	241	312		
Contacts—Group Registrations/Updates	253	271	214		
Contact—ASC/RSC Updates	34	34	22		
TOTAL Contacts Registrations/Updates	287	305	236		
Total Database Activity	671	546	547		
NAWS %	56%	46%	59%		
Web Contact %	44%	54%	41%		

### **Fellowship Publications**

In recent years, we have greatly reduced publication costs by making changes to the way we handle subscriptions to *The NA Way Magazine*, and we have also been working to more effectively utilize *Reaching Out*. A third periodical, *NAWS News*, is published following each World Board meeting, providing updates to World Service Conference participants and other interested NA members.

Reaching Out, published quarterly, is designed to help incarcerated addicts connect to the NA program and enhance H&I efforts. As our literature says, "The therapeutic value of one addict helping another is without parallel." Reaching Out is an example of the NA message of recovery uniting our members across the boundaries of age, race, gender, and socioeconomic status. There are two sections; "From the Inside" is filled with letters from incarcerated addicts sharing their experience, strength, and hope as they find and maintain recovery from addiction through NA.

In the second section, "From the Outside," NA members on the outside and Hospitals & Institutions subcommittees have a chance to offer their experience, strength, and hope. Many of these letters come from members who are deeply committed to carrying the NA message of recovery to addicts who are unable to attend regular meetings. You may also find personal experience from those members who heard the NA message on the inside and are now living and enjoying life on the outside. We recognize the value of stories from members who got clean while institutionalized, and have stayed clean on the outside. This not only provides encouragement for those on the inside; it also demonstrates to professionals working with addicts that NA is an effective recovery program.

Reaching Out has been a resource for NA members since 1986, but dedicated members around the world each year continue to breathe new life into this resource that helps many incarcerated members maintain hope. Single-copy subscriptions are available at no charge to members who will be incarcerated or institutionalized for six months or more, and free multiple-copy subscriptions are provided to each area service committee for use in their H&I efforts. A paid, multiple-copy subscription (20 copies per issue) is also available. Since making this available by e-subscription and download, we have been able to almost double our distribution of this publication. Thank you for helping us carry our message of hope!

The NA Way Magazine is NA's quarterly journal of recovery and service information, recovery-related entertainment, and current issues and events. We continue to utilize *The NA Way Magazine* to update the fellowship on projects and concerns, and to provide information regarding NAWS events and new products and literature. The magazine is published in English, Farsi, French, German, Portuguese, Russian, and Spanish. Since 2010, the Japan Region has supported local translations efforts to publish the magazine in Japanese. In the 2011–2012 fiscal year, NA members from 20 countries submitted material expressing their recovery experience, and event information for approximately 40 countries was included in the calendar section of the magazine.

We have continued in our efforts to encourage members to opt for esubs if they are able to do so. The electronic version of the magazine makes it possible for us to include enhancements that are not available in the print version. Esubs also greatly reduce the costs of publication and mailing, especially with the dramatic decrease in return postage expenses from having bad mailing

addresses on file for groups and members.

NAWS News is our quarterly publication that provides members with a snapshot of NAWS activity based on discussions and decisions coming out of each meeting of the World Board. We have made efforts to increase the effectiveness of NAWS News as a communication tool by changing the front page into a list that highlights all of the main points that are expanded on in the issue. That singlepage overview can be easily distributed among service bodies and interested

members. We have also added a NAWS Update email that we send to the addresses in our database on a monthly basis, providing basic information about current NAWS activity to help keep members informed. This has been guite successful.

#### **Reports**

A Guide to World Services in NA describes the World Service Conference as "...the one time and place where all of our world services come together... Every two years, regional delegates, the members of the World Board, and the executive director of the World Service Office meet to discuss questions of significance to the Fellowship of Narcotics Anonymous as a whole." To accomplish its work, the WSC requires significant preparatory materials. To that end, the Conference Agenda Report (CAR) is published and distributed (in English) a minimum of 150 days prior to the WSC. Translated versions follow and are sent out a minimum of 120 days prior to the WSC. The CAR presents information and proposals on issues that will be discussed at the conference. The CAR helps regional delegates to share this information with members in their NA communities and to prepare for the conference.

The Conference Approval Track (CAT) contains a variety of material to be considered at the upcoming World Service Conference that was not included in the *Conference Agenda Report*. This approval track was created in response to input from members and groups regarding the types of issues they were being asked to review in the *CAR*. While each region is free to determine how CAT items will be discussed locally, the original idea that created the CAT states, "This frees up our members and groups to devote their attention to holding meetings and carrying the message of recovery, without having to ratify every decision made on their behalf at every level of service." Items that typically are included in the CAT include the proposed NAWS Budget and project plans for the upcoming cycle, seating requests, and recommendations from the World Board, as well as other service- or WSC-related material.

As the conference draws nearer, the *Conference Report* is published. It includes status reports on conference projects, proposals for new work, a list of nominees for conference positions (board, cofacilitators, and HRP), details about the conference schedule, and regional reports submitted by the regional delegates. Other material such as zonal forum reports or articles submitted by delegates may also be included. The *Conference Report* informs NAWS and NA regions of successes and challenges throughout the fellowship. These reports are mailed to each voting conference participant, each RD alternate, and the mailing address of each region. Both the *Conference Agenda Report* and the *Conference Report* are also published online at www.na.org/conference.

## **Translations**

The composition of the NAWS translations team changed this year with the departure of one employee and transfer in of a staff member from Fellowship Services. The work of this team is divided amongst particular language groups, but staff efforts are also overlapped to ensure a level of mutual support in assisting the language groups. In this spirit, despite ongoing financial challenges, we are making progress catching up, and we are even lending support again to reenergize some faltering local translations efforts.

Our expenses for translators and proofreaders continue to increase due to rising contractor rates. We also experience greater expenses simply because we are working on an ever-increasing number of projects in additional languages. However, we are happy to report that IPs, many booklets, and softcover book translations can now be printed inhouse to conserve funds; an added benefit is that we can publish items faster and print small quantities on demand for our smaller communities.

We also want to acknowledge that some communities are now in a position to take on some of the financial burden for translations by paying for translation and/or proofreading services. This significantly decreases our direct costs because NAWS only has to pay for the quality check. These are great examples of communities beginning to thrive and practice self-support. This also allows us to allocate more resources to newer communities and move closer toward the goal that "Every addict in the world has the chance to experience our message in his or her own language and culture and find the opportunity for a new way of life."

## Translated books published in 2011–2012

#### **Basic Text, Fifth Edition:**

• Polish, Bulgarian

#### **Basic Text. Sixth Edition:**

Swedish

#### It Works: How and Why:

Japanese

#### Just for Today:

• Italian

#### NA Step Working Guides:

• Hebrew, Japanese

#### **Kuwait**

In 2011, NAWS hosted a meeting of the Arabic language translations committee (ALTC) in Kuwait. Members from Egypt, Saudi Arabia, Bahrain, and Kuwait were brought together to complete major recovery glossary revisions. Also on the agenda and successfully completed were the approval of Arabic IP #24, process discussions resulting in committee guidelines, and ideas for more unified Arabic literature distribution and pricing in the Middle

East. The glossary changes will greatly impact the currently published Arabic literature, including eleven IPs and the Basic Text. This means there is much work ahead for the professional proofreader and the ALTC. In conjunction with the translations workshop, we also had the opportunity in Kuwait to participate in a series of PR events that had been organized by the Kuwait PR committee. These four events included meetings with the media and representatives from the government and healthcare agencies.

We also continue to support other LTCs through online support, including Arabic, French, Danish, and Nederlands LTCs. We regularly participate in conference calls to assist these language groups in their ongoing translations efforts. Many other communities all around the world have worked on various translations efforts, a few of which we will highlight here.

## The Story Continues: Swahili-speaking Eastern Africa

Since we reported that NAWS prioritized translations of literature in Tanzanian Swahili, which serves as the standard version of Swahili spoken throughout countries in Eastern Africa, we can now gratefully report that four Swahili IPs have been published.

## Swahili

Habari Gani
(pronounced – Hubahree Gahnee)

Meaning:
"What's new?" or "How are you?"

NAWS funded a series of LTC workshops in three East African locations. The goal was to familiarize local members with the translations process and organize an LTC, and to review and finalize the Swahili recovery glossary and four IPs. The events were organized and supported through the cooperative efforts of staff in Chatsworth and member volunteers on location in East Africa coordinating and facilitating the events on the ground. The first workshop was in Dar es Salaam, the second on the

island of Zanzibar, and the third in Kenya (Mombasa). Logistics involved transportation of members, booking hotels and venues, transfer of funds to various places, and then the actual events: planning and discussing each day's agenda, process, and outcomes, and then recapping the sessions and making adjustments for the next day. The approved glossary is now guiding our professional translator and proofreader in their work on creating the next IP translations, working toward gathering the necessary material for the *Introductory Guide to NA* in Swahili.

#### Celebrations in India

It seems that good things take time, or, in words from our Basic Text: "The full fruit of a labor of love . . . always comes in its right season." India celebrated three decades of one addict helping another, marking 30 years of continuing growth, just as NA in Kolkata is on the precipice of a 25-year anniversary in 2013. Getting the NA message published in Hindi and Bengali has certainly played a pivotal role in this labor of love. Members throughout India and in Kolkata have worked tirelessly for many years, and have recently gained some additional momentum with enthusiastic LTCs. Translations activities in the last year have yielded several new publications for the NA communities in India. The Hindi LTC based in the capital city, New Delhi, had been busy readying *It Works: How and Why* and *The NA Step Working Guides* for publication, tripling their book-length literature translations after having completed the Basic Text in 2009. Keeping their momentum going, they are now working on *Just for Today*.

In the West Bengal state capital, Kolkata, the Bengali LTC was busy finalizing several new IPs, which made their way to publication this year. They are currently putting the final touches on the White Booklet and have prioritized the goal of moving the Basic Text from a long-standing draft to publication. India's West Bengal shares the Bengali language with the country of Bangladesh, where the NA community has a solid presence founded in a strong service ethic. As with any NA community, the availability of NA literature in their own language naturally helps to further their efforts.

#### The Asia Pacific Forum

We attended the 2012 Asia Pacific Forum meeting in Dhaka, Bangladesh, and facilitated several sessions, including sessions facilitated jointly by NAWS and APF admin trusted servants. Some of the topics included: Planning Basics, a NAWS Update, and a session about FD history and outlook in the Asia Pacific, which was facilitated by a former board member with extensive experience throughout the zone. Translations continue to be a strong feature in the community reports to the APF, and we had meetings with the delegates from Bhutan and Malaysia, as well as questions regarding fund flow in NA and NAWS. NAWS also visited a local treatment center and participated with APF leadership in a PR presentation with their Board of Narcotics Control. After the APF, the first Bangladesh convention took place in Cox's Bazaar, far south in the country, near the border with Myanmar.

#### **Iceland**

NAWS supported a translations workshop in Iceland in 2011 that was facilitated by a member of the European Delegates Meeting who has also served in translations on world and local levels. Several topics were addressed, including the recovery translations glossary, review of the *Translations Basics*, and creating an LTC and a work plan. A revised Icelandic glossary was adopted, with further discussions planned for the term "clean" rather than using the Icelandic equivalents of "sober" and "sobriety." The published IPs were flagged for revisions and the translation of the Basic Text was prioritized. The Danish and Norwegian regions committed some funding assistance for this project.

## Sharing Experience, Strength, and Hope

#### **Basic Text Stories – Translation**

Hi everyone,

I'm translating the stories for the 6th edition Basic Text. First a vocabulary question to the native speakers: What is a "Mary tea-towel" job???? This is the sentence: "I have been a productive member of society for a while now, holding down a straight 'Mary tea-towel' job for the last fifteen years of recovery."

I have an idea what it might mean, but I never heard the expression. Can anyone give me a synonym or an explanation? The second question concerns the index. Has any community already translated the stories, and how did you handle the index? In our opinion, there is a crazy amount of hypertext links in the text!!! We are copying them into the translation as we go along checking them with the index glossary file. But this means that only one person can work on the translation.

Does anyone have experiences to share?

Thanks and hugs from Germany

We continue to urge those involved in translations to take part in the Translations Discussion Board.

LTC members can greatly benefit from sharing their experience, questions, and solutions in this online "meeting place." It is a public discussion board, meaning that anyone can read the posts. However, only present and former LTC members and translation contacts are able to post there. The sample post in the text box exemplifies a couple of challenges that come up in translations that members can share about with one another in the spirit of "one addict helping another."

Recovery literature is one of the six key result areas currently outlined in our strategic plan. The two objectives identified under this heading, in short, address the need to have a diverse range of literature resources available for anyone seeking recovery and the need to be more effective in how we develop and distribute our literature. Translations has always been a critical concern in achieving these objectives, as many of the places where NA is growing most quickly or is in the greatest demand also happen to be places for which we have few or no translated literature items in the primary spoken language.

30

# Information Technology

The task of making the best possible use of information technology to help further our vision is not a small or simple one in any sense. As we have continually reported, advances in the technology field move much more quickly than we have the resources to keep up with, but we do strive to implement new technologies where and when they are practical and beneficial to helping to reach the goals identified in our vision. One of the biggest challenges we face as technology continues to advance at exponential rates is the growing digital divide—the wide gap between our least technologically savvy members and those who might be on the "bleeding edge" of new technology implementation.

As a worldwide fellowship, a strategic use of IT solutions sometimes represents the most sensible and practical way to achieve certain communications. Our members and potential members live in a wide variety of locales, ranging from dense urban settings to sparsely populated rural settings with hundreds of miles (or kilometers) between NA groups. For some of these populations, staying in touch with one another using technology is the only practical method for supporting one another and delivering services. In other places, trying to make use of shiny new tech solutions might only get in the way of carrying the message, or create more problems than it might solve. We encourage each community to be realistic about what makes sense locally and to try to implement technology only when it increases effectiveness, not just for the sake of novelty or a desire to appear up-to-date.

## **Trend**

(from the NAWS Environmental Scan)

Changes in technology have increased both the ways we can communicate and the demand for information.

That being said, many addicts today have greater access to new technology and want to see NA meet them on those new playing fields. The popularity of the *Just for Today* email continues to grow, and as a result our ability to maintain up-to-date contact information for a very large segment of the NA population has been improved greatly. We continue to send emails nightly to over 65,000 members, with a bounce rate of less than 1% and a monthly NAWS Update email to over 90,000 members.

We have also created a mobile version of the na.org site, which is automatically presented to those who visit our site from mobile devices. As our statistics later in this section indicate, that site has been quite useful to many members.

In this fiscal year, we also made literature available for two different ebook platforms, Amazon Kindle and Apple iBooks, in order to meet the growing demand for electronic literature while still preserving the fellowship's copyrights. Those platforms together cover the broadest swath of the ebook market and offer the level of digital rights management necessary to ensure that NA's copyrighted materials are not abused as the PDFs previously on our website were. The distribution numbers for those electronic versions—including the Basic Text, *It Works: How and Why*, and *Sponsorship*—have illustrated that while there is some demand for literature in that format, it is still somewhat of a niche market for our fellowship. We are also working on smartphone apps that will connect to our meeting database and show the day's *Just for Today* meditation, which will likely be popular among a certain segment of the NA population.

Yet while there is a high demand from a certain segment of our population to make the NA message available in these new and developing technologies, many of the addicts in NA and yet to find recovery are not active users of these technologies. Unfortunately, much of the progress we are able to make in these areas is available primarily to English speakers, while other language groups are still working hard to simply get some of our most basic literature resources translated. We strive to be mindful of the resource gaps between various segments of the NA population as a way to temper our desire to forge ahead and reach new technological heights as a fellowship. Our expansion into these new arenas can certainly prove useful for those members who can access them, but we also need to continue to make our message more widely available in traditional formats to reach those not as technologically inclined or privileged who have yet to find recovery.

In addition to the advances mentioned above, we also made progress this year with a more user-friendly meeting search tool at na.org that includes the option for viewing search results in map format. The improved functionality of the meeting search tool has also served as an encouragement for local service bodies to keep the meeting information for their communities more accurate and up-to-date. Still, we believe we can always do better in terms of keeping our database information complete and accurate. As always, we also continue to put new content on the website, and the eversions of our publications and subscriptions have continued to be well received among the fellowship. Here are a few examples of what has been happening related to IT at NAWS.

# **IT Statistics**

The website was completely revamped in the spring of 2012 and we launched a mobile version at the end of the summer. We now have over 75,000 files on the various web servers holding our website. The numbers below include figures from all sources during the year.

#### Hits/Visits/Views:

- We finished with over 113 million hits, averaging around 10 million/month.
- We had over 8.8 million visits, with over 22 million page views. Page views have decreased as the site becomes easier to navigate, requiring fewer clicks to reach a desired destination.
- Visits continue to rise steadily, currently between 600,000 and 700,000 per month. This is up around 20–30% from two years ago.

## Major areas of traffic:

- The meeting search continues to be far and away the busiest area (with the exception of the *JFT* page—see below), with well over 1 million visits.
- The "Find a Meeting" page has had around 600,000 visits, while the local phoneline and website page had around 300,000.
- The new website search we introduced in the spring has been used over 100,000 times since its implementation.

#### **Eblasts and emails:**

- We passed the 64,000 *JFT* emails-per-night mark in December 2012, and we sent out in excess of 20 million emails for the *JFT* alone during the 2012 calendar year.
- The daily *JFT* page on the website received over 1.5 million visits and 2.2 million views.
- Distribution of our NAWS eblasts is continuing to grow. The most recent one was sent to over 96,000 email addresses with less than 1% failure rate, meaning over 95,000 successful deliveries.

# Recovery and service material:

- The recovery literature index page was accessed over 250,000 times over the year, with over 80% of that going on to the English literature page.
- Service material is harder to track because of the new site, but the Service System page has been accessed approximately 9,000 times during this year.

#### **Publications:**

- The top publication online continues to be *The NA Way Magazine*, with an esub circulation in English of approximately 16,000, and continuing to grow.
- Similarly, interest in NAWS News is growing, and the most recent issue was sent out to around 13,000, up from 11,000 the previous issue.
- Reaching Out is growing exponentially as well, up to around 8,000 esubs.

The mobile website that went live shortly after the end of the 2011–2012 fiscal year has been tremendously successful, with almost 40% of the web traffic coming from mobile devices. The new map-based search feature seems to have been extremely well received, as we have had virtually no complaints about it since its launch. The primary landing spots on the mobile site are the meeting search and phonelines, events, and recovery literature, with meeting search being far and away number one.

# **Technology Infrastructure**

Last but never least, the technology infrastructure at NAWS requires constant vigilance. The infrastructure umbrella covers the hardware, major software packages, and peripherals that keep NAWS IT up and running. As has been our refrain in many areas in recent years, the global economy has not been improving at such a rate as to allow us to stay up-to-date with the "latest and greatest" servers, computers, and so on. We use existing equipment as creatively as we can and replace items as needed using a "triage" approach to prioritizing expenses. Once again, we continue to look ahead for improvement in the overall economy and the ability of our fellowship to support this work. We remain prudent and continue to look for the most affordable and practical ways to sustain and improve our IT efforts.

# Production and Distribution

In recent years, the narrative in our annual report regarding our product inventory has primarily been used to provide an overview of the numbers of each inventory item we distributed in the fiscal year. The story of our production and distribution operations is much more complex than that, and so we have decided to expand this section to give a more in-depth look at our operations related to our product inventory.

Two of the biggest aspects of our production and distribution operation that can easily be overlooked when simply reviewing distribution charts are customer service and shipping. Staff in these areas play a critical role in making it possible to put literature items into the hands of the NA members who need them, whether that is the still-suffering addict seeking a message of recovery or the NA trusted servant carrying that message by delivering an H&I panel or stocking a literature rack. The increasing use of our online shopping cart has freed up customer service staff to accomplish other important tasks, including but not limited to:

- following up on orders,
- customer relations interactions,
- addressing inventory shortages,
- making changes or corrections to orders that were placed online,

- invoicing,
- following up on delinquent accounts, and
- taking phone orders (orders over a certain amount are directed to web).

There is a separate online shopping cart for European customers, and staff in Brussels process and ship those orders. Canadian orders placed through the shopping cart for North America are processed at the Mississauga branch office.

In recent years, one trend we have noticed is an increase in group and ASC orders coming to us at NA World Services. In some cases this may be due to difficulties with nearby regional service offices (RSOs), such as literature shortages or slow processing time. We have made efforts to increase our partnership with RSOs in mutually beneficial ways. RSOs that have a contract relationship with us sometimes place weekly or biweekly orders that we can typically fulfill within 2.5 days, which makes it possible for the RSOs to better manage their inventory. In turn, we are able to increase our efficiency by processing fewer larger orders rather than many small orders. Many RSOs wait a bit longer, placing larger orders every month or two. This can mean a longer fulfillment time.

Another partnership effort we have taken with RSOs is the hosting of webinars with those involved in running the RSOs. These webinars offer opportunities for discussing challenges, sharing best practices, and identifying creative solutions to better serve areas, groups, and members who order literature locally. We have also made an arrangement whereby RSOs can use our United Parcel Service (UPS) customer account in order to benefit from the volume discounts that are offered for increased business. Consolidating our shipping costs in this way helps RSOs save money on shipping and has helped to simplify our relationship with UPS.

Shipping is a critical part of our operation that we have not given much attention to in past issues of the annual report. Out of our Chatsworth shipping department alone, we processed an average of 93.67 orders per day in February 2012. The steady increases in shipping costs that followed the global economic instability of recent years has prompted us to reevaluate various aspects of our shipping methods. We pay attention to changes in the ordering trends of the fellowship, such as shifts from many smaller orders to fewer larger orders, in order to try best to fit our workflow to current needs. It many cases, for example, it makes more sense for a well-functioning local service office to process smaller orders within a given community, which makes it possible for that service office then to place a single large order with NAWS as needed, reducing processing and handling time and energy for us, and decreasing shipping costs as well. This isn't always a possibility, but we always try to work with local service offices to reach the most sensible and mutually beneficial arrangement possible to make sure literature is readily available.

Our literature production efforts also require constant attention. Our production staff is responsible not just for creating and maintaining our current inventory of English-language products, but also for all of the work involved in expanding our inventory as other languages continue to add more translated titles to the list. Our production department works closely with the translations team to arrange for typesetting, layout, and proofreading of newly translated literature items. There is also a need to work with language communities to coordinate order quantities, as there are often minimum order sizes for certain printers, which can become an issue of concern if the number of items that will be distributed in a language is just a small fraction of what the minimum order quantity is.

We are always looking for ways to improve our in-house production efforts, which represent a great way to contain costs. The printing equipment we are now leasing gives us the capability of printing our softcover books in-house. This also enables us to have better control of batch sizes for printing jobs. A great benefit of this ability to manage batch sizes is the chance to print smaller runs of book-length literature for smaller NA communities that might otherwise be unable to distribute the number of books required for contracted book printing jobs.

Overall, the production and distribution team stays quite busy. In addition to all of the work we do to create and maintain our literature inventory, this team also plays a crucial role in the execution of the world convention, including the design and production of convention programs, merchandise, artwork, and so on. There's never a dull moment!

## **Books**

Each year, the annual report includes a series of charts showing distribution levels for various literature items. In the past these charts were included with financial statements, but with the expansion of production and distribution matters in this report, it seemed sensible to move the charts to this section.

In recent years, we have seen a continuing decline in distribution of a great many of our inventory items. Once again, that trend has persisted into this fiscal year, with the majority of our literature items showing reduced distribution numbers. The charts and graphs in the following pages will provide greater detail about where those numbers are falling, remaining steady, or growing.

1983-2012 Book Distribution

The chart above shows the all-time distribution comparison of our various book titles. The Basic Text remains our most popular piece of literature, this year having surpassed 8.7 million copies distributed since its initial publication in 1983. Total distribution of all titles is more than 14.8 million.

During the 2010–2012 fiscal year, total book distribution was just shy of one million copies, but this fiscal year showed a decrease to under 950,000. The biggest single drop was in the number of *It Works: How and Why* that were shipped, which was due in part to the previous year's numbers being up with the commemorative edition. The overall drop in *It Works* was evenly distributed between both the English and Farsi versions. In terms of percentage decrease, however, *Sponsorship* fell by 37%—the release of that title in Farsi during the previous fiscal year brought those numbers up temporarily. The increased distribution of *Miracles Happen* is a result of the more affordable softcover version with an included audio archive CD.

**2011–2012 Basic Text Distribution by Language**Top nine languages

# **Booklets**

During this fiscal year, the only booklet title that showed an increase—however slight (about 9%)—was *Twelve Concepts for NA Service*. All other booklets showed reduced distribution, with the largest drop by percentage being the *Introductory Guide* (18% reduction) and the smallest change being *The Group Booklet*, which fell by just 3%.

# **Informational Pamphlets**

The total distribution for all IPs was down 7.4% from approximately 5.6 million during fiscal year 2010–2011 to 5.2 million in 2011–2012. Only two IPs increased in distribution, our two top IPs Am I an Addict? and Welcome to NA, each of which increased by about 4%. The remainder of our IPs dropped in distribution, the smallest change being the Living the Program IP, which changed by only a tenth of a percent, and the largest being the Self-Support IP, which is only available in languages for which Money Matters: Self-Support in NA has not been translated.

# **Chips and Keytags**

The chips and keytags story has not changed much from last year to this year. The distribution numbers for each of these has dropped slightly since last year, with the only increases being in chips for 30 days, 60 days, and multiple years. Total distribution for all denominations remains over 3 million for keytags and over 2 million for chips.

2011-2012 Keytag Distribution

2011-2012 Chip Distribution

### **Medallions**

Bucking the trend of all other inventory items, this year medallions showed an overall increase in distribution by over 12%. The most drastic change was in the 40–50-year range, which more than doubled! The only drop across the various ranges was in those between 11 and 20 years—if these medallion distribution numbers illustrate anything, it's that the lie is truly dead: We do recover!

# Our Fellowship's Literature and Trademarks

Since 1993, NA World Services has been charged by the Fellowship of Narcotics Anonymous with sole responsibility for publishing Fellowship-approved literature and protecting NA copyrights and trademarks. The rights and responsibilities of this agreement are outlined by the *Fellowship Intellectual Property Trust*, and the guidelines found within it are also spelled out in simpler terms in the *NA Intellectual Property Bulletins*:

- FIPT Bulletin #1: Internal Use of NA Intellectual Property
- FIPT Bulletin #2: Individual NA Member Use of Narcotics Anonymous Trademarks

NA literature and logos belong to the NA Fellow-

> FIPT Bulletin #4: Reprinting NA Fellowship-approved Literature

ship, and through the FIPT, the fellowship has made it a duty of NAWS to protect these trademarks and copyrights from intended or unintended misuse and abuse. It is important to keep in mind that concerns about NA copyrights and trademarks are not about money or control. The goal of the FIPT is to strike the proper balance between protecting the fellowship's property and the goal of providing useful resources and services to the fellowship. We are notified regularly by members, groups, and service bodies about infringements of fellowship copyrights. In some cases, members (and nonmembers) violate NA copyrights simply because they don't know any better. In other cases, people may not be happy with the decisions of the fellowship as a whole or may want to profit from misuse of NA property. When such issues are brought to our attention, we strive to resolve the matter as peaceably as we can. Every NA member can help us do the job we have been asked to do by not supporting any activities that misuse NA

property.

**Narcotics** 

Anonymous

Protecting the fellowship's trademarks is often more challenging because misuse is difficult for our members to identify, and because NA members love NA memorabilia! We have tried to learn from some of AA's experiences in no longer owning their triangle logo by ensuring that the NA name, logos, and service symbol continue to belong to, and their use is controlled by, the NA Fellowship. We have given broad parameters for any registered area or region to use the fellowship's trademarks, and have granted licenses to vendors. We do this because trademark law requires that we use the logo in all classes of trademark registrations or lose our ownership. By licensing a vendor to produce NA jewelry, for example, we retain control and ownership of the fellowship's trademarks for jewelry that we do not directly produce. Every member can help here by ensuring that merchandise purchased is produced by a registered service committee or a licensed vendor. It is also important to take care not to infringe on others' trademarks, for example, Harley Davidson logos and DC Comics' Superman or Batman logos.

As we reported last year, we must balance our desire to make literature available online with the need for a level of security in these electronic versions that is sufficient to prevent copyright infringement. We still have informational pamphlets available online in 42 languages, but we have removed the PDF versions of the Sixth Edition Basic Text, *Narcotics Anonymous*, and *It Works: How and Why* because we were not able to adequately protect the copyrights on those PDFs. NAWS has a responsibility under the *FIPT* to prevent misuse, and while some members have expressed dissatisfaction about no longer having access to the PDFs, we are still able to make foundational literature items such as the White Booklet and *An Introductory Guide to NA* avaiable online, as these titles are not targeted for misuse in the same way that book-length literature is.

With the increasing demand for e-reader versions of booklength literature, we have been working for some time to be able to offer versions of our literature that will be compatible with many of the various e-reader devices available on the market today. At WSC 2012, two CAR motions were approved, changing the FIPT in order to allow NAWS to create "enhanced" electronic or digital versions, which may include things like audio clips or relevant hyperlinks to other NA materials and to allow NAWS to package various Fellowship-approved materials together in different ways. (An example of such bundling would be a Fourth Step thumb drive combining Fourth Step materials from the Basic Text, It Works: How and Why, the NA Step Working Guides, and IP #10, Working Step Four in Narcotics Anonymous, all in a single location.) While we have not yet made enhanced versions or bundled items available, we were able to release the Basic Text, It Works: How and Why,

and *Sponsorship* in e-book format for Amazon Kindle and iTunes during this fiscal year. We look forward to providing other items in the near future.

# The World Convention of NA

As we reported in the previous annual report, the world convention returned to San Diego, CA, in 2011 for WCNA 34. That report provided a basic breakdown of expenses and income for that event, and a more detailed reporting can be found with our financials in this issue of the annual report, because the event took place within this fiscal year. We were very pleased with the outcome of WCNA 34 in terms of fellowship response and responsible use of NA funds, and we look forward to taking the best lessons from that event into our execution of WCNA 35 in Philadelphia, Pennsylvania, USA.

WCNA 35 will take place from 29 August to 1 September 2013. Over 13,000 members from 47 countries attended WCNA 34 in San Diego, and we expect that WCNA 35 will attract even more members. Knowing that the northeast corridor of the US is home to an incredibly large segment of the overall NA population around the world, we think the attendance at WCNA 35 could very well be record-breaking.

One of the most important lessons we have learned is that it is not prudent for NA World Services to plan a world convention for those who choose not to pre-register or not to register at

all. With this in mind, WCNA 34 was the first world convention to require a registration badge to gain entrance to the event, including workshops and meetings held in the convention center. Part of our planning strategy in San Diego was to ensure that there was enough space at the world convention for everyone who pre-registered and to provide ample space for newcomers and on-site registrations. We will continue this policy at WCNA 35 in Philadelphia.

Much like our previous experience in 2003, our partnership with the city of San Diego was a significant factor in the success of WCNA. Every member of the hospitality community—from the janitor to the CEO of the facilities and convention bureau—worked tirelessly on our behalf. We also had a capable and dedicated support committee in San Diego without whom the event could not have been the success it was. As we mentioned last year, these trusted servants truly represented the WCNA 34 theme "In the Spirit of Unity" as they carried out their responsibilities with grace, dignity, and unity of purpose. Coordinating over 2,000 volunteers is a monumental task, and our support committee did a wonderful job!

To demonstrate our commitment to making the world convention either break even or generate a profit, we have changed our planning. The cost and rotation of the world convention are topics we continue to evaluate and discuss. We recognize the challenges posed by current event costs, our members' expectations, and past convention practices. The reality is that the world convention competes with well over 1,000 other NA events in the US annually. People are forced to make a decision, and with tougher economic times it seems an increasing number of members are choosing local events over WCNA.

With this in mind, our planning process revealed that every two years may be too often to hold the world convention. Our registration numbers at WCNA 34 in San Diego this past September seem to support this idea. Regardless of the number of registrations, we devote a tremendous amount of financial and human resources toward the world convention. These factors together seem to point to the wisdom of a less frequent world convention. By reducing the frequency of the world convention, we hope to make it more of a special occasion that members will prioritize.

In response to the motion in the 2012 *Conference Agenda Report*, the conference had a discussion about changing the rotation plan. As of WSC 2012, the convention was taking place every two years, and being held just once outside North America for every two conventions taking place within North America. The 2012 WSC adopted the rotation plan changes proposed in the *CAR*, and so the convention will now take place every three years, alternating each time between North America and outside of North America.

The mission of the World Service Office is to provide services and support which facilitate the continuation and growth of Narcotics Anonymous worldwide...

# Staff and Offices

Between July 2011 and June 2012, a total of 61 staff members were employed by NA World Services in four service centers around the world. Forty-eight of those employees worked in the Chatsworth office.

# **NAWS** – Chatsworth

19737 Nordhoff Place Chatsworth, California 91311 USA

Tel: 818.773.9999 Fax: 818.700.0700 Website: www.na.org

World Service Office, USA

Our main service center in Chatsworth, California, continues to serve as an important resource for our worldwide fellowship in a variety of ways. This branch is home to the executive and administrative staff responsible for providing support to the World Board and the World Service Conference. An integral part of that support is working closely with the board and workgroups to carry out conference projects. Other ongoing responsibilities coordinated from this location include the production and distribution of West to STANG C NA literature and service materials, and the maintenance of NA's website, www.na.org. This location also serves as a centralized resource for members, groups, and service committees around the world by responding to phone calls, emails, and letters on a day-to-day basis.

# NAWS - Europe

B-1050 Brussels, Belgium

Tel: +32.2.646.6012 Fax: +32.2.649.9239

#### **Branch Office Manager**

Paul Decock (paul@na.org)

#### Assistant:

Fred Renaux (fred@na.org)

The continent of Europe is a mosaic of cultures and languages, and that is why our challenge is still to be able to stock enough literature in the small warehouse at our European branch office to meet the needs of all communities. We currently maintain a stock of literature at this branch of 39 different languages. The bulk of the inventory is in European languages, but we also stock Farsi, Brazilian, and Hindi for European groups in those languages.

This branch office continues to distribute a substantial amount of free literature to emerging NA communities. Many of these communities are located in Central and Eastern Europe: Russia, Estonia, Lithuania, Latvia, Poland, Czech Republic, Ukraine, Bulgaria, Slovenia, Croatia, and Bosnia. In addition, this branch also ships free literature to places in Turkey, the Middle East, and North and East Africa.

Our European branch also serves as a point of contact for NA in Europe. While some members directly contact NA World Services in Southern California, some others find it easier to reach this branch office, which is able to provide basic support and information to groups, members, or institutions seeking information about NA.

In this last year, more and more communities have chosen to process donations to NAWS through our European account at WSO-Europe. We thank you for responding to our call for help in this challenging time. Your contributions make it possible for us to

maintain a service center and the same level of service to the European communities.

Finally, this branch office provides support to the zonal forum for the continent, the European Delegates Meeting. The EDM legal entity was established in Belgium, and NAWS staff provided assistance to them in opening and managing their bank account in Brussels.

## NAWS - Canada

Mississauga, Ontario Tel: 905.507.0100

Fax: 905.507.0101

# Branch Office Supervisor

Jacquie Sullivan (jacquie@na.org)

#### Assistant:

Paul Sullivan

Not far from Toronto, Ontario, our Canadian literature storage and shipping facility in Mississauga continues to serve the needs of the Canadian NA communities. The increase in recent years of sales to the local NA groups is helping to stabilize its running expenses. The main function of the facility is accommodating the literature needs in Canada. The two employees at this distribution center work hard to ship all orders that are processed. They were able to attend WCNA 34 in San Diego this year and, for the very first time, visit the office in Chatsworth and meet with their Californian counterparts. We're very thankful for and proud of all their work, which makes it possible to get our message to those who need it in Canada.

# NAWS - Iran

PO Box 14665-3115 Tehran, Iran

Telefax: +98 21 886 816 52

# Branch Office Manager

Siamak Khajeian (siamak@na.org)

#### Other employees:

Amir Bondar, Farhad Fallah, Mehrdad Naseri, Hossein Nematzadeh, Farhad Poursohei (farhad@na.org), Reza Tavakoli, Payam Yazdani

Maintaining a literature production and distribution center in the capital of Iran has been the most effective solution to serve the needs of the most rapidly growing NA community in the world. In addition to the production and distribution of NA literature and merchandise, this branch also translates and distributes The NA Way Magazine in Farsi. The manager of this center coordinated the establishment of the facility. He has the assistance of seven employees, with whom he continues to work very hard to produce and distribute literature to the Iranian NA community. This year we moved offices and obtained a separate warehouse to meet our growing needs. The staff's enthusiasm and dedication contribute to the ongoing success of this venture and the strength of NA in Iran.

As we have mentioned before, the phenomenon of NA in Iran cannot easily be explained in any report. It seems to be a combination of a number of factors: culture, need, little focus on drug replacement therapies by the government and professionals, a spirit of service, an effective chain of communications that reaches the individual member, a service structure that was designed by the region to serve the common welfare, and relentless public relations. With nearly 17,000 meetings as of WSC 2010 (up from roughly 15,000 meetings in October 2008), they continue to do

more public relations than any community we are aware of. While we do not believe that other NA communities can duplicate what has happened in Iran, there is much we can learn from them about service efforts and PR. The distribution charts in this report are a clear illustration of just how many addicts in Iran have the opportunity to hear the NA message.

# NAWS - India

Bangalore, India

# Part-time Shipper

Pramila Dias

As freight and material prices have risen over the last decade, we've had to ponder ways to decrease the freight overhead and consider local production options. In the case of India, specifically, and South Asia in general, literature distribution has been especially difficult because these communities are so far away from our other distribution centers. In 2008, we opened a distribution center in Bangalore, India, to accommodate the NA communities there and throughout Asia, as much as is fiscally feasible. These communities have benefited greatly from being able to receive literature much sooner and in greater quantities than before, and the costs to NAWS have been substantially reduced. Coupled with local production of items such as books, IPs, and keytags, NAWS-India plays a significant role in furthering our vision.

#### In Memoriam

On 25 January 2013, Jeannie LaMalfa passed away after a period of illness. Jeannie's relationship with Narcotics Anonymous began when she played a role in the printing of the First Edition Basic Text in 1982. Jeannie had a longstanding passion for the NA message and eventually came to work for NA World Services, almost reaching 20 years of employment before discovering her illness in late 2012. She will be missed by us all.

# **Financial Reports**

This section of the annual report is broken into three parts: consolidated statement of financial position and consolidated statement of activities, independent auditors' report, and contributions report.

The consolidated statement of financial position (SoFP) and consolidated statement of activities (SoA), also known as the "balance sheet" and "income statement," respectively, provide a report on the financial activity of NA World Services during the fiscal year. The SoFP, or balance sheet, gives a simple breakdown of the current assets and liabilities of NAWS in financial terms. The SoA, or income statement, provides a breakdown of the total income and expense for all branches of NAWS compared to the budget adopted at WSC 2010 and broken down in the categories shown in the chart. Under each set of expenses, we include costs for accounting, personnel, overhead, and technology. These are expenses that cannot be attributed directly to any of the specific areas of activity. They are budgeted and allocated (distributed) according to a calculated fixed percentage across the four activity areas. The allocated percentage is based on three factors: the number of personnel devoted to the activity, the approximate number of labor hours, and the amount of physical office space required by the activity and estimated for the two-year budget cycle.

The **independent auditors' report** is provided by an outside firm that conducts a professional audit of NAWS' financial reports and practices. NAWS contracts with an independent auditor to conduct

# Percentage of Expense for 2011–2012

this annual review of all of our financial activity for each fiscal year as well as to perform random forensic (spot) checks. These forensic checks review and verify our internal controls and internal financial practices. In order to comply with legal requirements, we have an Audit Committee comprised of some members of the Business Plan Group. Consistent with normal accounting practice, this workgroup is independent of specific NAWS management control and operates on behalf of the Board.

The references to specific line items and expenses are shown differently in the NAWS income statement and the independent auditor's report. But they do show, within a few dollars the same income and expense, serving as the outside or impartial verification of our financial reporting for this fiscal year.

Finally, the **fellowship contributions report** is a report on the contributions received by NA World Services throughout the fiscal year from the NA Fellowship, broken down by region and/or country.

#### Independent Auditors' Report

To the World Board of Narcotics Anonymous World Services, Inc.

We have audited the accompanying consolidated statements of financial position of Narcotics Anonymous World Services, Inc. (the "Organization") as of June 30, 2012, 2011 and 2010, and the related consolidated statements of activities, functional expenses and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of Payam Ornega, (the official business name of the Iran service office) as of June 30, 2012 and 2011 and for the years then ended, which statements reflect total assets of \$580,651 and \$1,122,502 as of June 30, 2012 and 2011, respectively, and total revenues of \$193,820 and \$328,950, respectively, for the years then ended. Except as explained in the third paragraph, those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Payam Ornega, is based solely on the report of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the report of the other auditors provide a reasonable basis for our opinion.

The opinion of the other auditors on the June 30, 2012 and 2011 financial statements of Payam Omega was qualified because they were not able to obtain information to support inventory in the amount of \$317,021 as of June 30, 2012 and \$492,185 as of June 30, 2011, and net assets of \$171,708 as of June 30, 2010.

In our opinion, based on our audits and the report of the other auditors, except for the effects of such adjustments, if any, as might have been determined to be necessary had the other auditors been able to satisfy themselves as to Payam Omega's inventory as of June 30, 2012 and 2011 and net assets as of June 30, 2010, the consolidated financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Narcotics Anonymous World Services, Inc. as of June 30, 2012, 2011 and 2010 and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

End of year	\$	745,407	\$	2,647,954	\$	1,399,126

Supplemental disclosures of cash flow information: Interest paid during the years ended June 30, 2012, 2011 and 2010 amounted to \$3,211, \$0, and \$75,997, respectively.

In the year ended June 30, 2010, leased equipment with a net book value of \$399,066 was replaced and the related lease obligations, totaling \$544,084, were terminated.

### **Notes to Consolidated Financial Statement**

## Independent Auditors' Report Years Ended June 2012, 2011, and 2010

#### NOTE 1 - ORGANIZATION AND NATURE OF ACTIVITIES

Narcotics Anonymous World Services, Inc. (NAWS) was incorporated on January 25, 1977 and is headquartered in Chatsworth, California. In addition, NAWS operates a literature distribution facility in Toronto, Canada and offices in Brussels, Belgium, and Iran. NAWS' Iranian service office is known as Payam Omega. NAWS is a not-for-profit organization that provides communications and information for the Fellowship of Narcotics Anonymous (NA). NAWS achieves its purpose by maintaining correspondence with NA groups and service committees, by printing and distributing World Services Conference (WSC) approved literature, and by maintaining the archives and files of NA.

In 1993, NA established the Fellowship Intellectual Property Trust (the Trust). The Trust was established for the purpose of holding and administering all recovery material and other intellectual properties of NA. The Trust is included in the consolidated financial statements of NAWS as a result of common control.

NAWS is exempt from income tax under Section 501(c)(3) of the Internal Revenue Code and the California Revenue and Taxation Code. The Trust is also exempt under the applicable Internal Revenue Code and comparable California Revenue and Taxation Code. In addition, the Internal Revenue Service has determined that NAWS and the Trust are not private foundations within the meaning of Section 509(a) of the Internal Revenue Code. Therefore, no provision for Federal and state income taxes was made for either NAWS or the Trust.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Consolidation Policy and Basis of Accounting

The accompanying consolidated financial statements include the accounts of NAWS and the Trust. Significant intercompany balances and transactions are eliminated in consolidation. The consolidated financial statements are prepared on the accrual basis of accounting.

#### B. Financial Statement Presentation

Under U.S. generally accepted accounting principles (GAAP) not-for-profit organizations are required to report information regarding financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. As of June 30, 2012, 2011 and 2010, NAWS held no temporarily or permanently restricted net assets.

#### Cash and Cash Equivalents

NAWS considers all funds held in checking, savings and money market accounts to be cash and cash equivalents. Short term investments with initial maturities of 30 days or less are also considered cash equivalent.

#### Investments

NAWS investments are reported at fair value. Investments include certificates of deposit, equities and government securities. See Note 5.

#### E. Publication Inventory

Publications and other items held for resale are included in inventory and are carried at the lower of cost or market, with cost determined by the first-in, first-out method.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### F. Property and Equipment

Leasehold improvements and furniture and equipment are stated at cost. Major additions are capitalized while replacements, maintenance and repairs that do not improve or extend the useful life of the asset are expensed. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which are as follows:

Leasehold improvements Furniture and equipment

5 years 5 - 10 years

Depreciation expense for the years ended June 30, 2012, 2011, and 2010 amounted to \$67,633, \$13,106 and \$171,942, respectively.

#### G. Trademarks and Copyrights

The cost of acquiring and defending copyrights and trademarks is capitalized and is amortized over the approximate economic life of the copyright or trademark, which is estimated to be ten years. The cost of computer software is also capitalized and amortized over a period of seven years. Amortization expense for the years ended June 30, 2012, 2011 and 2010 amounted to \$82,701, \$50,559 and \$101,606, respectively.

#### H. Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are reported net of an allowance for doubtful accounts. The allowance is based on management's estimate of the amount of receivables that will actually be collected. Management estimates uncollectible accounts based on the age of the receivable and other factors.

#### Translation of Foreign Financial Statements

Financial operations in Canada, Europe and the Middle East are translated throughout the year to United States dollars. Gains or losses resulting from translating foreign currency financial statements are recorded in the consolidated statements of activities.

#### J. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

#### K. Functional Allocation of Expenses

Based on estimates developed by management, 2012, 2011, and 2010 program service costs totaled \$7,952,452, \$5,441,419 and \$7,325,806, management and general costs totaled \$883,606, \$604,602 and \$813,978, respectively.

#### L Tax Status

NAWS has adopted guidance on accounting for uncertainty in income taxes issued by the Financial Accounting Standards Board. Management believes that NAWS has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance. Information returns for years subsequent to June 30, 2008 (2007 for state returns) are subject to examination by authorities.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### M. Reclassifications

Certain 2010 and 2011 amounts have been reclassified to conform to the 2012 presentation.

#### NOTE 3 - RETIREMENT PLAN

NAWS maintains a qualified defined contribution retirement plan, which covers all employees. Under the terms of the plan, employees may elect to contribute pre-tax earnings up to the maximum allowable amount. NAWS matches deferrals of up to 5% of compensation based on the employee's number of years of service. NAWS contributions totaled \$66,984, \$60,529 and \$69,941 for the years ended June 30, 2012, 2011 and 2010, respectively.

#### NOTE 4 - OPERATING AND CAPITAL LEASES

NAWS has entered into capital lease agreements for the use of office equipment. The total value of the equipment under capital leases as of June 30, 2009 was \$776,560. These agreements were terminated and the equipment retired during 2010. Replacement equipment was obtained under a new agreement, which is treated as an operating lease in the accounting records. NAWS leases additional equipment and facilities under various operating leases.

The following is a schedule of future minimum rental payments required under operating leases that have initial or remaining noncancelable lease terms in excess of one year as of June 30, 2012:

Year ending June 30		
2013	s	825,641
2014		815,781
2015		825,059
2016		573,373
2017		384,316
Thereafter	-	367,479
Total minimum payments required	s	3.791,649

Total payments made under the leases during the years ended June 30, 2012, 2011 and 2010 were \$720,697, \$655,245 and \$746,935 respectively.

#### NOTE 5 - INVESTMENTS

GAAP establishes a fair value hierarchy that prioritizes valuation inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market:

Level 1 - Inputs are quoted prices in an active market.

Level 2 – Inputs are quoted prices for similar instruments and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data.

Level 3 – Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

#### NOTE 5 - INVESTMENTS (Continued)

The following tables summarize investments based on the inputs used to value them:

	June 30, 2012							
	_1	evel 1	_1	evel 2		Level 3	_	Total
Certificates of deposit U.S. Government and Government	\$	-	\$		\$	372,390	\$	372,390
Agency obligations Equities		4,761	_	7,863	_			7,863 4,761
	\$	4,761	\$	7,863	\$	372,390	\$	385,014
				June 3	0, 2	011		
		evel 1	_1	evel 2	_	Level 3	_	Total
Certificates of deposit U.S. Government and Government	s	-	\$	-	\$	372,105	\$	372,105
Agency obligations Equities		4,597		9,371		-		9,371 4,597
	\$	4,597	5	9,371	5	372,105	5	386,073
				June 3	30, 2	010		
	- 1	evel 1	_1	evel 2		Level 3		Total
Certificates of deposit U.S. Government and Government	\$	7.1	\$	+1	\$	455,791	\$	455,791
Agency obligations Equities		1,569		13,222		72		13,222 1,569
	\$	1,569	\$	13,222	\$	455,791	\$	470,582

The following tables reconcile the beginning and ending fair value of the Plan's Level 3 investments:

		Years Ended	
	June 30, 2012	June 30, 2011	June 30, 2010
Balance, July 1 Purchases/accrued interest Sales/maturities	\$ 372,105 440,479 (440,194)	\$ 455,791 12,315 (96,001)	\$ 415,338 12,178 28,277
Balance, June 30	\$ 372,390	\$ 372,105	\$ 455,791

Level 1 investments comprise equities traded daily on an active exchange. Level 2 investments consist of government obligations valued based on trade prices for similar securities. Level 3 investments are certificates of deposit reported at cost, which approximates fair value.

#### NOTE 6 - CONCENTRATIONS OF CREDIT RISK

NAWS places its cash and cash equivalents with high quality financial institutions. Cash in U.S. banks was fully covered by the Federal Deposit Insurance Corporation (FDIC). Cash in Canadian accounts is insured up to \$100,000 (Canadian) per bank. Cash in other foreign accounts is not insured by the FDIC and totaled approximately \$350,000 as of June 30, 2012.

Assets reported in the statement of financial position as of June 30, 2012 include cash of approximately \$234,000 and publication inventory of approximately \$317,000 at Payam Omega. Due to current relations between Iran and the United States, it is unlikely that NAWS could transfer such assets out of Iran; accordingly their use is limited to Iranian operations.

#### NOTE 7 - EMPLOYMENT CONTRACT

NAWS has entered into an employment agreement with its Executive Director. The agreement provides for compensation and benefits and expires on December 31, 2013. Should the agreement be terminated by NAWS, certain amounts would be payable to the Executive Director as defined in the agreement.

#### NOTE 8 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through February 25, 2013, the date these financial statements were available to be issued. There were no material subsequent events that require recognition or additional disclosure in these financial statements.

## Invest in Our Vision

With each edition of the annual report, we provide a detailed list of the contributions members, groups, and service committees have sent us during the fiscal year. We organize the contributions by region for easy reference. Looking at the contribution figures as compared to the total expenses for fellowship services gives us a snapshot view of how far these fellowship contributions go in paying for the services we provide for and on behalf of our worldwide fellowship.

As most of our members understand, the fact that NA World Services, Inc. must operate as a business does not change the spiritual nature of our goals as an organization. This is supported by the approval of A Vision for NA Service at WSC 2010. While some organizations respond to the ongoing challenges posed by the global economic climate by cutting the level of services provided, the continued pursuit of our vision means continuing to provide the highest level of services we can.

As the following charts indicate, we have been able to make modest cuts without a serious reduction in the services we provide to the fellowship. The unfortunate reality is that we are not able to calculate the overall loss the fellowship sustains when we are unable to provide workshops for a developing NA community or when we are unable to have a presence at a public relations event. In some cases we are able to rely on local members to step up and fill those roles in our absence, but other times these unattended events simply represent missed opportunities. While we were able

## Percentage of Income for 2011-2012

to reduce expenses during this fiscal year, the coming year will include the rather considerable expenses associated with holding the World Service Conference. The conference is another area where we have sought to reduce expenses as much as possible, but the costs of holding any week-long event of this type can only be reduced so much.

The following table shows the total contributions we have received per group in recent years, as compared to the cost per group of services we provide

(i.e., WSC support and fellowship development expenses). These figures are meant to provide an idea of what it would take for our fellowship services to be funded entirely by fellowship contributions. With the size of the Iranian fellowship and the current political situation that makes contributions difficult, we are also offering the figures with Iran removed from the equation.

# Annual WSC & Fellowship Development Expenses and Total Weekly Meetings Worldwide

Year	2008-2009	2009–2010	2010-2011	2011–2012	2011–2012 without Iran
Number of meetings worldwide (approx.)	53,038	58,039	58,039	61,888	43,693
Total contributions received from meetings worldwide	\$807,711	\$643,745	\$741,994	\$666,860	\$666,860
Contributions received per meeting worldwide	\$15.23	\$11.09	\$12.78	\$10.78	\$15.26
Cost to fund fellowship services (WSC support and fellowship development)	\$4,773,473	\$4,777,373	\$3,854,232	\$4,611,670	4,611,670
Dollars needed per meeting worldwide to cover fellowship services	\$90.00	\$82.31	\$66.41	\$74.52	\$105.55
Percentage of expenses currently covered by fellowship contributions	16.9%	13.5%	19.3%	14.5%	14.5%

About half of our fellowship is concentrated in the US and Canada, but about 80% of our contributions also come from NA groups and service bodies in that part of the world. Many NA communities outside of North America are still in early developmental stages or exist in places where the economic conditions prevent the possibility of making substantial financial contributions to the global fellowship anytime in the near future. With that in mind, we also provide figures regarding what it would take for groups in US/Canada to fully fund the services provided directly to the fellow-

ship by NAWS each year. These figures are noticeably higher, but when broken down to a monthly figure, this would amount to each group in the US and Canada contributing a little more than \$13 to NA World Services each month. Especially for well-off groups in the US and Canada, this figure does not seem too outrageous. Indeed, in recent years we have seen an uptick in the number of contributions coming directly from NA groups, which is a fund-flow model supported not just by the recently updated self-support pamphlets, but one that has been a part of Fellowship-approved NA literature since the mid-1990s.

## Annual WSC & Fellowship Development Expenses and Total US/Canada Meetings

Year	2008–2009	2009–2010	2010–2011	2011–2012
Number of meetings in US and Canada (approx.)	26,779	27,883	27,883	29,097
Contributions received from US and Canada	\$724,200	\$537,819	\$589,882	\$581,554
Contributions received per US and Canada meeting	\$27.04	\$19.32	\$21.19	\$19.99
Cost to fund fellowship services (WSC support and fellowship development)	\$4,773,473	\$4,777,373	\$3,854,232	\$4,611,670
Dollars needed per US/Canada meeting to cover fellowship services	\$178.25	\$171.64	\$138.48	\$158.55
Percentage of expenses currently covered by US/Canada contributions	15.2%	11.3%	15.6%	12.6%

As always, we encourage other service bodies to do what we have done here: calculate the cost of delivering effective services in your area or region and report those numbers to the local NA groups. The figures will be most helpful when broken down into meaningful numbers, such as the amount of contributions needed per group, per month, to keep the local service budget solvent. By providing members information about what it takes to make these services possible, we can help them see how the money they put in the basket is an investment in our vision.

#### Donation Trends 1995-2012

This chart illustrates the amount of fellowship contributions received over the past decade. The portion in green illustrates contributions coming from service committees of various types, which includes revenues from conventions, events, and merchandise sales. The portion in red shows contributions coming from NA groups, and blue from individual members. While contributions overall haven't rebounded much since the economic downturn, the portions of the total contributions received that are coming directly from groups and from individual members have been gradually increasing. As the self-support IPs approved in 2010 suggested, direct contributions to each level of service are a more reliable method for funding the NA service system. While it is slow to change our culture of contributions, this chart suggests that the culture has begun to shift a bit..
